## EXPLANATORY NOTES

**Source of Data.** Import documents collected by Customs are the basic source of import statistics, except for data on imports of electricity, which are reported by the importing firms directly to the Dominion Bureau of Statistics.

**The Periods.** Import statistics for any month include all goods declared on import entries received at DBS during the calendar month. There is a lapse of up to a week between the actual customs clearance of imports and receipt of the relevant documents in DBS. Electricity imports are usually included in statistics for the month in which these imports actually occurred.

**Storage.** Import statistics include all goods which are cleared by Customs immediately on arrival in Canada, plus goods which are entered in customs warehouses. There may be, however, a difference in the time at which warehoused goods are recorded as imports, some shipments which enter customs warehouses remain there for several months before clearance.

**Exclusions.** The following commodity movements are excluded from import statistics and are recorded separately as Special Transactions-Non trade in Table 4) gold and gold products where the value of the gold content is 80% or more of the total value except for dental gold alloy (class 882-99) and a small amount of gold scrap in the form of 'jewellers' sweepings (class 258-99); current coin, settlers' effects, private donations and gifts; tourist purchases exempt from duty; goods imported by foreign armed forces; diplomats stationed in Canada or brought back by Canadians returning from postings outside Canada; temporary imports for exhibition or competition; and film imported for exhibition or processing or returned after exhibition or processing abroad; ships of British construction and registry imported for use in Canada; and ships purchased for use as international carriers but not used to carry goods between points in Canada; bunker

## NOTES EXPLICATIVES

1. **Source des données:** La statistique des importations se fonde principalement sur les documents d'importation recueillis par les Douanes, sauf dans le cas des importations de l'électricité, qui sont déclarées directement par les compagnies importatrices au Bureau fédéral de la statistique.

2. **Périodes de temps.** La statistique des importations pour un mois quelconque comprend toutes les marchandises déclarées dans les documents d'importation parvenus au B.F.S. durant le mois civil. Il y a un décalage d'une semaine entre le dédouanement effectif des importations et l'arrivée des documents qui s'y rapportent au B.F.S. Les importations d'électricité sont ordinairement comprises dans la statistique du mois où elles ont effectivement eu lieu.

3. **Couverture:** La statistique des importations comprend toutes les marchandises dédouanées dès leur arrivée au Canada plus les marchandises entreposées à la douane. Il peut y avoir, toutefois, une différence entre le moment où les marchandises sont entreposées et celui où elles sont consignées comme importations, certaines marchandises entreposées à la douane attendent leur dédouanement pendant plusieurs mois.

a. **Exclusions:** Les mouvements de marchandises suivants sont exclus de la statistique des importations (la majorité est classée séparément en Transactions spéciales-hors commerce au Tableau 4) l'or et les articles en or dont la valeur de la teneur en or représente 80 p. 100 ou plus de la valeur totale, sauf les alliages d'or dentaire (classe 882-99) et une petite quantité de déchets d'or sous forme de balayures de bijoutiers (classe 258-99); la monnaie courante; les effets d'immigrants, les dons et cadeaux privés, les achats des touristes exempts de douane; les marchandises importées par les forces armées ou les diplomates étrangers en poste au Canada ou rapportées par les Canadiens rentrant de leur service hors du Canada, les importations provisoires pour expositions et concours, les films importés pour projection ou développement ou retournés à l'étranger après projection ou développement; les navires de construction et d'immatriculation britanniques importés pour usage au Canada et les navires

supplies and ships' stores purchased by Canadian vessels or aircraft abroad; generally, all temporary imports and goods merely moving in transit through Canadian territory.

achetés pour usage comme transporteurs nationaux et non pour le transport de marchand d'un endroit à un autre au Canada: les app sionnements de soute et de bord achete l'étranger par les navires et les avions canad en général toutes les importations provisoir les marchandises ne faisant que passer p territoire canadien.

4. **Countries Credited:** Imports are credited to the country from which goods are consigned to Canada, except for goods produced in Central or South America but first consigned to Canada from the United States, which are credited to the country of origin.

4. **Pays de provenance:** Les importations sont tées au pays de consignation vers le Canada, les marchandises produites en Amérique cen ou en Amérique du Sud et expédiées au Canada États-Unis, lesquelles sont attribuées au d'origine.

5. **Quantities:** Tables 3 and 4 show quantities in terms of the units specified for each class in the Import Commodity Classification, Vol. I (DBS Catalogue No. 12-524). Where no unit of quantity is specified, the quantity columns are blank.

5. **Quantités:** Les Tableaux 3 et 4 donnent les quan suivant les unités déterminées pour chaque c dans la "Classification des marchandises portation", vol. 1 (B.F.S. numéro de cata 12-524). Lorsque l'unité de quantité n'es mentionnée, les colonnes de quantité dem en blanc.

Units of weight or volume are measured net of the weight or volume of any packing required for shipment except in certain special cases otherwise defined in the Customs Tariff. Numbers refer to complete (or substantially complete) units imported, excluding parts (for any class where the recorded value includes both complete units and parts of these units, the average value per complete unit cannot be calculated). All units of quantity used in this report are defined on page 9.

Les unités de poids ou de volume sont mes nettes de l'emballage nécessaire a l'exped sauf dans certains cas speciaux définis da tarif douanier. Le nombre vise les articles cor (ou suffisamment complets) importés, sau pièces de rechange. Les nombres représente unités completes (ou assez completes) expo sans les parties (pour les catégories ou la indiquée comprend a la fois des unités, parties d'unités, il est impossible de ca la valeur moyenne par unité complete). Tout unités de quantité employées dans le p rapport sont expliquées à la page 9.

6. **Values.** The value of goods imported is usually the value as determined for customs duty. The Canadian Customs Act generally requires the valuation of goods f.o.b. point of shipment in the country of export, but importers often report c.i.f. values for free goods or goods subject to specific rates of duty. An effort is made to ensure that f.o.b. values are consistently used in import statistics.

6. **Valeurs:** Ordinairement, la valeur des marche importées est la valeur déterminée pour droits de douane. La loi canadienne sur les d exige généralement l'évaluation des marche f. à b. au point d'expédition dans le pays e teur mais, les importateurs déclarent sou valeur c.a.f. pour les marchandises en fr ou les marchandises sujettes à un tarif dé On s'efforce d'assurer que la valeur f. à régulièrement employée dans la statistiq importations.

All values appearing in this report are presented in thousands of dollars. Where the cumulative value of imports from a particular country in any commodity class is less than \$500, a line for that country is printed if a quantity is available and only the quantity is shown. Where the cumulative value is \$500 or more but the value for the current month is less than \$500 a quantity (if applicable) but no value appears in the current month column. All totals and cumulative values are calculated from unrounded figures and rounded independently, they will therefore often differ from the sum of the rounded figures shown in the report.

Toutes les valeurs qui paraissent dans le rapport sont indiquées en milliers de dollar que la valeur cumulative des importations venance d'un pays en particulier dans une c de marchandises est inférieure à \$500, u apparaît dans le rapport si une quantité ponible et la quantité seulement est i Lorsque la valeur cumulative est de t supérieure mais, pour le mois en cours, i à \$500, une quantité (si disponible, paraît contre aucune valeur ne paraît dans la co mois en cours. Tous les totaux et toutes le cumulatives sont calculés à partir de chi arrondis et sont arrondis indépendammen liers de dollars; ils différeront donc souv somme des chiffres arrondis du rapport.

**Abbreviations:** Many descriptions of countries and commodities used in this report are abbreviated or incomplete. A key to abbreviations of countries appears on page 10, and full descriptions of all commodities appear in the Import Commodity Classification, Vol. I. The letters "n.e.s." mean "not elsewhere specified".

**Revisions:** All statistics in this report are subject to revision. Revisions to previous reports are published on coloured pages at the beginning of this report.

**Country Classification:** Statistics are compiled and presented on a geographical basis and the use of state or territorial titles carries no political, territorial or constitutional implications.

**Treatment of Confidential Information:** It is occasionally necessary when producing current statistics to withhold publication of details of imports where commodity or country information is known to involve disclosure. The suppression of country detail, however, does not affect class totals, which include all transactions which have been reported to DBS during the calendar month.

**7. Abréviations:** Plusieurs descriptions de pays et de marchandises employées dans le présent rapport sont abrégées ou incomplètes. La clef aux abréviations des pays paraît à la page 11 et des descriptions complètes de toutes les marchandises paraissent dans la "Classification des marchandises d'importation", Vol. I. Les lettres "n.d.a." signifient "non dénommé ailleurs".

**8. Rectifications:** Toutes les données statistiques contenues dans le présent rapport sont sujettes à rectification. Les rectifications apportées aux rapports antérieurs paraissent dans les pages en couleur au début de ce rapport.

**9. Classification des pays:** Quoique les statistiques soient ventilées géographiquement les désignations des états et des territoires ne comportent nullement une signification politique, territoriale ou constitutionnelle.

**10. Renseignements confidentiels:** Dans la production des statistiques courantes, il est parfois nécessaire de supprimer les détails des importations de certains produits pour protéger le caractère confidentiel de données individuelles, qui pourrait être compromis par la publication de chiffres pour certains produits ou certains pays. La suppression des détails pour les pays ne modifie toutefois pas les totaux de classe, qui comprennent toutes les opérations dont il a été fait rapport au B.F.S. au cours du mois civil.

## NOTES ON SAMPLING

Commencing January 1, 1969, documents of imports from the United States valued at less than \$1,500 each have been subject to a 10 per cent systematic sample to provide estimates for low-value imports from that country. Import documents from the U.S. exceeding \$1,500 and all import documents from other countries, regardless of value, continue to be processed and compiled by complete count.

All documents are sorted into homogenous commodity groupings according to tariff item information on the document. The low-value documents covering imports from the U.S. are selected from each commodity grouping and are subject to a systematic sample with a random start

Once the document is selected through the sample procedure, the value, quantity and customs duty of each sample line are mechanically inflated by dividing by the sampling ratio. For example, if the sampling ratio were 1/10, all lines shown on the sampled documents would be multiplied by 10, and the estimates thus derived are included with the complete count statistics.

It should be noted that the aggregate value of low-value documents of U.S. imports accounts for 6 per cent to 7 per cent of the import total, (8 per cent to 10 per cent for imports from the U.S.) but accounts for some 60 per cent of all documents (some 70 per cent of documents for imports from the U.S.).

The estimated \$80 million a month of low-value U.S. imports is subject to a sampling variability of 1 per cent to 2 per cent. This means that there is a 2 in 3 chance of the estimated value differing from the "true" value by not more than 1 per cent to 2 per cent.

Estimates for individual commodity classes are of course subject to varying degrees of sampling variability. The closeness of individual estimation to "true" values also varies with the universe of documents selected for the particular class in any particular sample. While it is difficult to represent this in tabular form, readers should be aware that the odds against a particular estimate being close to the true value by a specified percentage increase quite rapidly as the universe of documents upon which the estimate is based decreases.

## NOTES SUR LA MÉTHODE D'ÉCHANTILLON

Depuis le 1er janvier 1969, on établit à p d'un échantillon systématique de 10 p. 100 des d ments concernant les importations d'une valeur rieuse à \$1,500 des estimations sur les marchand de faible valeur importées des États-Unis. données sur les marchandises valant plus de \$1 importées des États-Unis et sur toutes les ma dises importées des autres pays, quelle qu'en la valeur, continueront d'être dépouillées et co lées exhaustivement.

Tous les documents sont répartis en gro homogènes de marchandises, suivant les groupe tarif douanier. Sur chaque groupe, on prélève documents sur les marchandises de faible v importées des États-Unis et on procède à un so systématique dont le premier élément est choi hasard.

Pour chaque document sélectionné par son on gonfle automatiquement la valeur, la quant les droits de douane figurant sur chaque lign les divisant par le taux d'échantillonnage. P exemple, si le taux d'échantillonnage est de 1/1 données sur chaque ligne des documents sélecti sont multipliées par 10 et les estimations calculées sont incorporées aux résultats de la pilation exhaustive.

Il convient de noter que les documents s importations de faible valeur en provenanc États-Unis représentent de 6 p. 100 à 7 p. 100 valeur globale des importations (de 8 p. 100 p. 100 des marchandises importées des États-mais quelque 60 p. 100 de l'ensemble des doc (environ 70 p. 100 des documents sur les impor des États-Unis).

Vu qu'elle résulte d'un sondage, la valeu mative des marchandises de faible valeur im chaque mois des États-Unis (80 millions de c peut varier de 1 à 2 p. 100 par rapport à la "réelle". Cela veut dire que, dans 2 cas su valeur estimative ne diffère pas de la valeur de plus de 1 ou 2 p. 100.

La variabilité de sondage des estimatio varier d'une catégorie de marchandises à un L'écart entre chaque estimation et la valeur varie également, dans tout sondage, en fon l'univers de documents sélectionné pour catégorie. Il est difficile de représenter c forme de tableau, mais le lecteur ne doit pas que le nombre de chances d'obtenir une es ne différant pas de la valeur réelle de plu pourcentage diminue rapidement si l'univers ments qui sert de base à l'estimation se

## UNITS OF QUANTITY

EL .....	Volume in barrels.
CRAT .....	Weight in carats.
CRD .....	Volume in cords.
CT .....	Weight in units of 100 lb.
CTN .....	Weight of contents in units of 100 lb. (containers excluded).
DOZ .....	Number of dozens.
DOZ PR .....	Number of pairs in dozens.
FT .....	Length in linear feet.
GAL .....	Volume in Canadian gallons.
GROSS .....	Number of gross.
KG .....	Weight in kilograms.
LB .....	Weight in pounds.
LBN .....	Weight of contents in pounds (containers excluded).
TH .....	Number in thousands.
TH F .....	Volume in thousand board feet.
TH CF .....	Volume in thousand cubic feet.
KWH .....	Thousand kilowatt hours.
NO .....	Number.
ONZ .....	Weight in ounces.
PACK .....	Number of packs.
PAIR .....	Number of pairs.
GAL .....	Volume of alcoholic content in Canadian gallons of the strength of proof.
PKG .....	Number of packages.
38 .....	Volume in square feet of 3/8 inch in thickness.
FT .....	Area in square feet.
YD .....	Area in square yards.
TON .....	Weight in short tons of 2,000 lb.
CT .....	Weight in troy ounces.

## UNITÉS DE QUANTITÉ

BRL .....	Volume en barils.
CARAT .....	Poids en carats.
CORDE .....	Volume en cordes.
DOUZ .....	Nombre de douzaines.
D PR .....	Nombre de douzaines de paires.
GAL .....	Volume en gallons canadiens.
GAL P .....	Volume du contenu alcoolisé en gallons canadiens de preuve.
GR .....	Nombre en grosses.
KILO .....	Poids en kilogrammes.
LIV .....	Poids en livres.
LIV N .....	Poids du contenu en livres (récipients exclus).
M .....	Nombre en milliers.
M KWH .....	Milliers de kilowatts-heure.
M PCU .....	Volume en milliers de pieds cubes.
M P P .....	Volume en milliers de pieds planche.
NOMB .....	Nombre.
ONCE .....	Poids en onces.
ON TR .....	Poids en onces troy.
PAIRE .....	Nombre de paires.
PAQ .....	Nombre de paquets.
PC 3 8 .....	Volume en pieds carrés de 3/8 de pouce d'épaisseur.
PI .....	Longueur en pieds linéaires.
PI CA .....	Superficie en pieds carrés.
QTL .....	Nombre en quintal en poids de 100 livres.
QTL N .....	Poids du contenu en quintal de 100 livres (récipients exclus).
TONNE .....	Poids en tonnes courtes de 2,000 livres.
VG CA .....	Superficie en verges carrées.

# KEY TO ABBREVIATIONS OF COUNTRIES

Note: The classification of Countries with a statement of the territorial limits used for statistical purposes found in the annual Volume III, Imports 1966-1968, Catalogue No. 65-203. Amendments effective in any year are listed in the January report for that year. The use of state or territorial titles carries no political, territorial or constitutional implication.

\* Imports of electricity were normally included in statistics for the month in which they actually occurred. As of June 1971, however, such imports are reported with statistics for the following month.

Les importations d'électricité étaient ordinairement comprises dans la statistique du mois pendant lequel elles avaient effectivement eu lieu. Cependant, depuis la statistique de juin 1971, ces importations sont comprises avec les statistiques du mois suivant.
